

H Vamshigangadhar

Software Development Engineer

I am interested in developing software with different prerequisites of the real world, for this development we need problem solving skills with DSA and I want to ace these skills with more real world experience in development

- MPC

PERSONAL PROJECTS

Dice game (03/2022 - 03/2022)

- This website is a game, where there would be two players and each time the website is refreshed we perform a roll. Either player 1 or player 2 wins or the game may be drawn.
- I have used HTML, CSS and JS.
- <https://vamshigangadhar.github.io/dice-game/>

TicTacToe game (01/2023 - 01/2022)

- It's a game in which we can play a game called TicTacToe.
- It's built using React Js.
- <https://vamshigangadhar.github.io/tic-tac-toe/>

HVG Foundation (07/2022 - 07/2022)

- I have worked on project to build a website for Foundation, where a foundation is willing to collect donations for helping poor and needy. There I have created a payment gateway website. This would make a payment through Razorpay.
- Using HTML CSS and JS.
- <https://vamshigangadhar.github.io/Sample-donation-webpage/>

BytesTheNewsLetter (10/2022 - 11/2022)

- In this website we can post different journals regarding software industry. This journals will be published on the internet through the website.
- This website is developed using HTML CSS and JavaScript
- bytesthenewsletter.com
